#5 Gallinger Floor Loom

Gallinger looms were last made in East Berlin Pennsylvania at The Mannings. They are usually 4H counterbalance looms with heavy cotton belting instead of pulley ropes and 4 direct tie-up treadles. They have a tension brake on the warp beam with a wooden brake drum. They were originally designed by Osma Gallinger Tod and her husband built them in Enola Pa and later they were made at the Mannings in East Berling Pa.

4 Shaft counterbalance style

4 Treadles

26" Reed 15 DPI

37" Wide x 44" Deep x 49" High

This loom has some watermarks on the lower left side but it is in good condition and the wood is solid.
